**Editors' Note**

Oxford Advanced Surfaces Group plc (OAS) is a research-based company that develops and licenses intellectual property and products in the areas of highly reactive chemistry and anti-reflective coatings. The Company's research scientists develop innovative solutions in advanced materials and nano-technology for partners to exploit. The Company's solutions apply to real-world, practical processing and innovation challenges as novel polymer and organic materials are introduced to improve cost, weight, space and performance in new products. Initial applications include advanced adhesion promotion and anti-reflective coatings in markets including consumer and industrial displays, solar panels, eyewear and the electronics and adhesion markets.
